## ACI Structural Journal VOLUME 100, 2003

Remove this section and include it with your January through December 2003 Volume 100 issues of the *ACI Structural Journal*.

### A

**Abdel-Sayed, G.**—Flexural and shear strengthening of concrete beams using new triaxially braided ductile fabric (100-S83) Nov.-Dec. 2003 . . . . . 804

**Aboutaha, R. S.**—Cyclic response of exterior reinforced concrete beam-column joints reinforced with headed bars—experimental investigation (100-S28) Mar.-Apr. 2003 . . . . . 259

**Abutment**

—Seismic performance of sacrificial interior shear keys (100-S19) Silva, P. F.; Megally, S.; and Seible, F., Mar.-Apr. 2003 . . . . . 177

**Adhesives**

—Behavior and design of single, headed and unheaded, grouted anchors under tensile load (100-S24) Zamora, N. A.; Cook, R. A.; Konz, R. C.; and Consolazio, G. R., Mar.-Apr. 2003 . . . . . 222

**Alexander, S. D. B.**

—Moment transfer at interior slab-column connections (100-S21) Mar.-Apr. 2003 . . . . . 197

—Punching of two-way concrete slabs with fiber-reinforced polymer reinforcing bars or grids (100-S61) Sept-Oct. 2003 . . . . . 589

**Alkali-aggregate reaction**

—On fiber-reinforced polymer rehabilitation of alkali-aggregate reaction-damaged beams (100-S8) Lacasse, C.; Labossière, P.; and Neale, K. W., Jan.-Feb. 2003 . . . . . 66

—Slot cutting of concrete dams: field observations and complementary experimental studies (100-S45) Caron, P.; Léger, P.; Tinawi, R.; and Veilleux, M., July-Aug. 2003 . . . . . 430

**Analysis**

—Calibration of design code for buildings (ACI 318) part 2—reliability analysis and resistance factors (100-S42) Szerszen, M. M., and Nowak, A. S., May-June 2003 . . . . . 383

—Reduction of column yielding during earthquakes for reinforced concrete frames (100-S59) Kuntz, G. L., and Browning, J., Sept.-Oct. 2003 . . . . . 573

**Analysis of fiber-reinforced polymer composite grid reinforced concrete beams** (100-S27) Tavarez, F. A.; Bank, L. C.; and Plesha, M. E., Mar.-Apr. 2003 . . . . . 250

**Anchor**

—Behavior and design of single, headed and unheaded, grouted anchors under tensile load (100-S24) Zamora, N. A.; Cook, R. A.; Konz, R. C.; and Consolazio, G. R., Mar.-Apr. 2003 . . . . . 222

—New concrete anchors for carbon fiber-reinforced polymer post-tensioning tendons—part 1: state-of-the-art review/design (100-S10) Reda Taha, M. M., and Shrive, N. G., Jan.-Feb. 2003 . . . . . 86

—New concrete anchors for carbon fiber-reinforced polymer post-tensioning tendons—part 2: development/experimental investigation (100-S11) Reda Taha, M. M., and Shrive, N. G., Jan.-Feb. 2003 . . . . . 96

**Anchor Bolt**

—Behavior and design of single, headed and unheaded, grouted anchors under tensile load (100-S24) Zamora, N. A.; Cook, R. A.; Konz, R. C.; and Consolazio, G. R., Mar.-Apr. 2003 . . . . . 222

**Anchorage**

—Effectiveness of reinforcement details in exterior reinforced concrete beam-column joints for earthquake resistance (100-S16) Murty, C. V. R.; Rai, D. C.; Bajpai, K. K.; and Jain, S. K., Mar.-Apr. 2003 . . . . . 149

—Experimental assessment of factors affecting transfer length (100-S76) Barnes, R. W.; Grove, J. W.; and Burns, N. H., Nov.-Dec. 2003 . . . . . 740

—Innovative system for prestressing fiber-reinforced polymer sheets (100-S33) El-Hacha, R.; Wight, R. G.; and Green, M. F., May-June 2003 . . . . . 305

**Antoniades, K. K.**—Cyclic tests on seismically damaged reinforced concrete walls strengthened using fiber-reinforced polymer reinforcement (100-S54) July-Aug. 2003 . . . . . 510

**Ashour, A. F.**—Sagging and hogging strengthening of continuous reinforced concrete beams using carbon fiber-reinforced polymer sheets (100-S47) July-Aug. 2003 . . . . . 446

### B

**Bae, S.**—Stress block parameters for high-strength concrete members (100-S65) Sept.-Oct. 2003 . . . . . 626

**Bajpai, K. K.**—Effectiveness of reinforcement details in exterior reinforced concrete beam-column joints for earthquake resistance (100-S16) Mar.-Apr. 2003 . . . . . 149

**Baka, A.**—Earthquake-resistant design of reinforced concrete structures: shortcomings of current methods (100-S2) Jan.-Feb. 2003 . . . . . 11

**Bank, L. C.**—Analysis of fiber-reinforced polymer composite grid reinforced concrete beams (100-S27) Mar.-Apr. 2003 . . . . . 250

**Bar**

—Cyclic response of exterior reinforced concrete beam-column joints reinforced with headed bars—experimental investigation (100-S28) Chutarat, N., and Aboutaha, R. S., Mar.-Apr. 2003 . . . . . 259

—Development of bond strength of reinforcement steel in self-consolidating concrete (100-S52) Chan, Y.-W.; Chen, Y.-S.; and Liu, Y.-S., July-Aug. 2003 . . . . . 490

**Barnes, R. W.**—Experimental assessment of factors affecting transfer length (100-S76) Nov.-Dec. 2003 . . . . . 740

**Bartlett, F. M.**—Tests of unbonded seven-wire tendon with broken outer wires (100-S60) Sept.-Oct. 2003 . . . . . 581

**Bayrak, O.**

—Retrofit of square concrete columns with carbon fiber-reinforced polymer for seismic resistance (100-S81) Iacobucci, R. D.; Sheikh, S. A.; and Bayrak, O., Nov.-Dec. 2003 . . . . . 785

—Stress block parameters for high-strength concrete members (100-S65) Sept.-Oct. 2003 . . . . . 626

**Beam**

—Analysis of fiber-reinforced polymer composite grid reinforced concrete beams (100-S27) Tavarez, F. A.; Bank, L. C.; and Plesha, M. E., Mar.-Apr. 2003 . . . . . 250

—Combined torsion and bending in reinforced and prestressed concrete beams (100-S17) Rahal, K. N., and Collins, M. P., Mar.-Apr. 2003 . . 157

—Design approach for carbon fiber-reinforced polymer prestressed concrete bridge beams (100-S40) Grace, N. F., and Singh, S. B., May-June 2003 . . . . . 365

—Design of simply supported deep beams using strut-and-tie models (100-S72) Matamoros, A. B., and Wong, K. H., Nov.-Dec. 2003 . . . . . 704

—Effectiveness of reinforcement details in exterior reinforced concrete beam-column joints for earthquake resistance (100-S16) Murty, C. V. R.; Rai, D. C.; Bajpai, K. K.; and Jain, S. K., Mar.-Apr. 2003 . . . . . 149

—Effects of steel fibers on short beams loaded in shear (100-S79) Cho, S.-H., and Kim, Y.-I., Nov.-Dec. 2003 . . . . . 765

—Experimental and analytical modeling of concrete-filled fiber-reinforced polymer tubes subjected to combined bending and axial loads (100-S53) Fam, A.; Flisak, B.; and Rizkalla, S., July-Aug. 2003 . . . . . 499

—Experimental evaluation of ACI and AASHTO-LRFD design provisions for combined shear and torsion (100-S29) Rahal, K. N., and Collins, M. P., May-June 2003 . . . . . 277

—Experimental investigation of lap splices in externally bonded carbon fiber-reinforced plastic plates (100-S1) Stallings, J. M., and Porter, N. M., Jan.-Feb. 2003 . . . . . 3

—Innovative system for prestressing fiber-reinforced polymer sheets (100-S33) El-Hacha, R.; Wight, R. G.; and Green, M. F., May-June 2003 . . . . . 305

—Seismic performance of interior post-tensioned concrete wide beams (100-S30) Siah, W. L.; Mendis, P.; and Stehle, J. S., May-June 2003 . . . 283

—Shear behavior of high-workability concrete beams (100-S62) Lin, C.-H., and Lee, W.-C., Sept.-Oct. 2003 . . . . . 599

—Shear deterioration of reinforced concrete beams subjected to reversed cyclic loading (100-S51) Lee, J.-Y., and Watanabe, F., July-Aug. 2003 . . . . . 480

—Shear strength and minimum shear reinforcement of reinforced concrete slender beams (100-S22) Zararis, P. D., Mar.-Apr. 2003 . . . . . 203

—Shear strength prediction by modified plasticity theory for short beams (100-S12) Cho, S.-H., Jan.-Feb. 2003 . . . . . 105

—Tendon stress and flexural strength of externally prestressed beams (100-S67) Ng, C.-K., Sept.-Oct. 2003 . . . . . 644

**Beam column**

—Characteristics of high-speed cyclic test of beam-column joints (100-S20) Dhakal, R. P., and Pan, T.-C., Mar.-Apr. 2003 . . . . . 188

—Cyclic loading of ductile precast concrete beam-column connection (100-S31) Khaloo, A. R., and Parastesh, H., May-June 2003 ..... 291
—Cyclic loading response of simple moment-resisting precast concrete beam-column connection (100-S46) Khaloo, A. R., and Parastesh, H., July-Aug. 2003 ..... 440
—Eccentric reinforced concrete beam-column joints subjected to cyclic loading (100-S15) Teng, S., and Zhou, H., Mar.-Apr. 2003 ..... 139
—Effectiveness of reinforcement details in exterior reinforced concrete beam-column joints for earthquake resistance (100-S16) Murty, C. V. R.; Rai, D. C.; Bajpai, K. K.; and Jain, S. K., Mar.-Apr. 2003 ..... 149
—Nonseismic design of beam-column joints (100-S68) Hegger, J.; Sherif, A.; and Roeser, W., Sept.-Oct. 2003 ..... 654
**Behavior and design of single, headed and unheaded, grouted anchors under tensile load** (100-S24) Zamora, N. A.; Cook, R. A.; Konz, R. C.; and Consolazio, G. R., Mar.-Apr. 2003 ..... 222
**Behavior of concrete columns with double-head studs under earthquake loading: parametric study** (100-S82) Youakim, S. A., and Ghali, A., Nov.-Dec. 2003 ..... 795
**Bending moment**
—Combined torsion and bending in reinforced and prestressed concrete beams (100-S17) Rahal, K. N., and Collins, M. P., Mar.-Apr. 2003 .. 157
**Benmokrane, B.**—Concrete bridge barriers reinforced with glass fiber-reinforced polymer composite bars (100-S84) Nov.-Dec. 2003 ..... 815
**Bent caps**
—Crack width prediction using compatibility-aided strut-and-tie model (100-S43) Zhu, R. R. H.; Wanichakorn, W.; Hsu, T. T. C.; and Vogel, J., July-Aug. 2003 ..... 413
**Bhagavan, N. G.**—Experimental studies on in-plane ductility of confined masonry panels (100-S36) May-June 2003 ..... 330
**Billington, S. L.**—Simulation of highly ductile fiber-reinforced cement-based composite components under cyclic loading (100-S77) Nov.-Dec. 2003 ..... 746
**Bleeding**
—Development of bond strength of reinforcement steel in self-consolidating concrete (100-S52) Chan, Y.-W.; Chen, Y.-S.; and Liu, Y.-S., July-Aug. 2003 ..... 490
**Bond**
—Behavior and design of single, headed and unheaded, grouted anchors under tensile load (100-S24) Zamora, N. A.; Cook, R. A.; Konz, R. C.; and Consolazio, G. R., Mar.-Apr. 2003 ..... 222
—Bond of surface-mounted fiber-reinforced polymer reinforcement for concrete structures (100-S57) Harmon, T. G.; Kim, Y. J.; Kardos, J.; Johnson, T.; and Stark, A., Sept.-Oct. 2003 ..... 557
—Cyclic response of exterior reinforced concrete beam-column joints reinforced with headed bars—experimental investigation (100-S28) Chutarat, N., and Aboutaha, R. S., Mar.-Apr. 2003 ..... 259
—Deformation behavior of fiber-reinforced polymer reinforced engineered cementitious composite (ECC) flexural members under reversed cyclic loading conditions (100-S4) Fischer, G., and Li, V. C., Jan.-Feb. 2003. ... 25
—Effect of epoxy coating thickness on bond strength of reinforcing bars (100-S34) Miller, G. G.; Kepler, J. L.; and Darwin, D., May-June 2003. . 314
—Effectiveness of reinforcement details in exterior reinforced concrete beam-column joints for earthquake resistance (100-S16) Murty, C. V. R.; Rai, D. C.; Bajpai, K. K.; and Jain, S. K., Mar.-Apr. 2003 ..... 149
—Evaluation of effect of August 17, 1999, Marmara earthquake on two tall reinforced concrete chimneys (100-S39) Kilic, S. A., and Sozen, M. A., May-June 2003 ..... 357
—Experimental investigation of bond strength of hot-dip galvanized reinforcement in normal- and high-strength concrete (100-S49) Hamad, B. S., and Mike, J. A., July-Aug. 2003 ..... 465
—Experimental investigation of lap splices in externally bonded carbon fiber-reinforced plastic plates (100-S1) Stallings, J. M., and Porter, N. M., Jan.-Feb. 2003 ..... 3
—Tendon stress and flexural strength of externally prestressed beams (100-S67) Ng, C.-K., Sept.-Oct. 2003 ..... 644
—Towards modeling of reinforced concrete members with externally bonded fiber-reinforced polymer composites (100-S6) Wong, R. S. Y., and Vecchio, F. J., Jan.-Feb. 2003 ..... 47
**Bond of surface-mounted fiber-reinforced polymer reinforcement for concrete structures** (100-S57) Harmon, T. G.; Kim, Y. J.; Kardos, J.; Johnson, T.; and Stark, A., Sept.-Oct. 2003 ..... 557
**Bond strength**
—Development of bond strength of reinforcement steel in self-consolidating concrete (100-S52) Chan, Y.-W.; Chen, Y.-S.; and Liu, Y.-S., July-Aug. 2003 ..... 490
**Brace**
—Seismic behavior of reinforced concrete braced frame (100-S14) Xu, S.-H., and Niu, D.-T., Jan.-Feb. 2003 ..... 120
**Bramblett, R. M.**—Increasing flexural capacity of reinforced concrete beams using carbon fiber-reinforced polymer composites (100-S5) Jan.-Feb. 2003 . 36
**Breaumier, É.**—Concrete bridge barriers reinforced with glass fiber-reinforced polymer composite bars (100-S84) Nov.-Dec. 2003 ..... 815
**Breña, S. F.**
—Full-scale tests of bridge components strengthened using carbon fiber-reinforced polymer composites (100-S80) Nov.-Dec. 2003 ..... 775
—Increasing flexural capacity of reinforced concrete beams using carbon fiber-reinforced polymer composites (100-S5) Jan.-Feb. 2003 ... .36
**Bridge**
—Concrete bridge barriers reinforced with glass fiber-reinforced polymer composite bars (100-S84) El-Salakawy, E.; Benmokrane, B.; Masmoudi, R.; Brière, F.; and Breaumier, E., Nov.-Dec. 2003 ..... 815
—Experimental evaluation of ACI and AASHTO-LRFD design provisions for combined shear and torsion (100-S29) Rahal, K. N., and Collins, M. P., May-June 2003 ..... 277
**Brière, F.**—Concrete bridge barriers reinforced with glass fiber-reinforced polymer composite bars (100-S84) Nov.-Dec. 2003 ..... 815
**Browning, J.**—Reduction of column yielding during earthquakes for reinforced concrete frames (100-S59) Sept.-Oct. 2003 ..... 573
**Buckling**
—Influence of tension strain on buckling of reinforcement in concrete columns (100-S9) Moyer, M. J., and Kowalsky, M. J., Jan.-Feb. 2003 ..... 75
**Burns. N. H.**—Experimental assessment of factors affecting transfer length (100-S76) Nov.-Dec. 2003 ..... 740

## C

**Calibration of design code for buildings (ACI 318): part 1—statistical models for resistance** (100-S41) Nowak, A. S., and Szerszen, M. M., May-June 2003 ..... 377
**Calibration of design code for buildings (ACI 318): part 2—reliability analysis and resistance factors** (100-S42) Szerszen, M. M., and Nowak, A. S., May-June 2003 ..... 383
**Canbay, E.**—Contribution of reinforced concrete infills to seismic behavior of structural systems (100-S66) Sept.-Oct. 2003 ..... 637
**Capacity**
—Sagging and hogging strengthening of continuous reinforced concrete beams using carbon fiber-reinforced polymer sheets (100-S47) El-Refaie, S. A.; Ashour, A. F.; and Garrity, S. W., July-Aug. 2003 ..... 446
**Carbon**
—Design approach for carbon fiber-reinforced polymer prestressed concrete bridge beams (100-S40) Grace, N. F., and Singh, S. B., May-June 2003 ..... 365
—New concrete anchors for carbon fiber-reinforced polymer post-tensioning tendons—part 1: state-of-the-art review/design (100-S10) Reda Taha, M. M., and Shrive, N. G., Jan.-Feb. 2003 ..... 86
**Carbon fiber-reinforced polymer**
—Flexural behavior of reinforced concrete beams strengthened with carbon fiber-reinforced polymer laminates at different levels of sustaining load (100-S25) Shin, Y.-S., and Lee, C., Mar.-Apr. 2003 ..... 231
—Innovative system for prestressing fiber-reinforced polymer sheets (100-S33) El-Hacha, R.; Wight, R. G.; and Green, M. F., May-June 2003. ..... 305
**Carbon fiber-reinforced polymer composites**
—Increasing flexural capacity of reinforced concrete beams using carbon fiber-reinforced polymer composites (100-S5) Breña, S. F.; Bramblett, R. M.; Wood, S. L.; and Kreger, M. E., Jan.-Feb. 2003 ..... 36
**Caron, P.**—Slot cutting of concrete dams: field observations and complementary experimental studies (100-S45) July-Aug. 2003 .... 430
**Chaallal, O.**—Confinement model for axially loaded short rectangular columns strengthened with fiber-reinforced polymer wrapping (100-S23) Mar.-Apr. 2003 ..... 215
**Chan, Y.-W.**—Development of bond strength of reinforcement steel in self-consolidating concrete (100-S52) July-Aug. 2003 ..... 490
**Characteristics of high-speed cyclic test of beam-column joints** (100-S20) Dhakal, R. P., and Pan, T.-C., Mar.-Apr. 2003. ..... 188
**Charkas, H.**—Rigorous procedure for calculating deflections of fiber-reinforced polymer-strengthened reinforced concrete beams (100-S56) July-Aug. 2003 ..... 529
**Chen, Y.-S.**—Development of bond strength of reinforcement steel in self-consolidating concrete (100-S52) July-Aug. 2003 ..... 490
**Cheng, J. J. R.**—Punching of two-way concrete slabs with fiber-reinforced polymer reinforcing bars or grids (100-S61) Sept-Oct. 2003 ..... 589
**Cho, S.-H.**
—Shear strength prediction by modified plasticity theory for short beams (100-S12) Jan.-Feb. 2003 ..... 105
—Effects of steel fibers on short beams loaded in shear (100-S79) Nov.-Dec 2003 ..... 765

**Chutarat N.**—Cyclic response of exterior reinforced concrete beam-column joints reinforced with headed bars—experimental investigation (100-S28) Mar.-Apr. 2003 . . . . . 259
**Cleland, D. J.**—Improved equivalent frame analysis method for flat plate structures in vicinity of edge columns (100-S48) July-Aug. 2003 . . . . 454
**Coating**
—Effect of epoxy coating thickness on bond strength of reinforcing bars (100-S34) Miller, G. G.; Kepler, J. L.; and Darwin, D., May-June 2003 . . . . . 314
**Collins, M. P.**
—Combined torsion and bending in reinforced and prestressed concrete beams (100-S17) Mar.-Apr. 2003 . . . . . 157
—Experimental evaluation of ACI and AASHTO-LRFD design provisions for combined shear and torsion (100-S29) May-June 2003 . . . . . 277
**Column**
—Behavior of concrete columns with double-head studs under earthquake loading: parametric study (100-S82) Youakim, S. A., and Ghali, A., Nov.-Dec. 2003. . . . . 795
—Effectiveness of reinforcement details in exterior reinforced concrete beam-column joints for earthquake resistance (100-S16) Murty, C. V. R.; Rai, D. C.; Bajpai, K. K.; and Jain, S. K., Mar.-Apr. 2003. . . . . 149
—Experimental and analytical modeling of concrete-filled fiber-reinforced polymer tubes subjected to combined bending and axial loads (100-S53) Fam, A.; Flisak, B.; and Rizkalla, S., July-Aug. 2003 . . . . . 499
—Improved equivalent frame analysis method for flat plate structures in vicinity of edge columns (100-S48) Murray, K. A.; Cleland, D. J.; Gilbert, S. G.; and Scott, R. H., July-Aug. 2003. . . . . 454
—Influence of tension strain on buckling of reinforcement in concrete columns (100-S9) Moyer, M. J., and Kowalsky, M. J., Jan.-Feb. 2003 . . . 75
—Moment transfer at interior slab-column connections (100-S21) Alexander, S. D. B., and Simmonds, S. H., Mar.-Apr. 2003 . . . . . 197
—New shear strengthening technique for concrete slab-column connections (100-S32) El-Salakawy, E. F.; Polak, M. A.; and Soudki, K. A., May-June 2003 . . . . . 297
—Punching of two-way concrete slabs with fiber-reinforced polymer reinforcing bars or grids (100-S61) Ospina, C. E.; Alexander, S. D. B.; and Cheng, J. J. R., Sept-Oct. 2003 . . . . . 589
—Reinforced concrete columns under unequal load eccentricities (100-S55) Sarker, P. K., and Rangan, B. V., July-Aug. 2003. . . . . 519
—Retrofit of square concrete columns with carbon fiber-reinforced polymer for seismic resistance (100-S81) Iacobucci, R. D.; Sheikh, S. A.; and Bayrak, O., Nov.-Dec. 2003. . . . . 785
—Seismic performance of hollow bridge columns (100-S37) Mo, Y. L.; Wong, D. C.; and Maekawa, K., May-June 2003 . . . . . 337
**Combined torsion and bending in reinforced and prestressed concrete beams** (100-S17) Rahal, K. N., and Collins, M. P., Mar.-Apr. 2003 . . 157
**Composite**
—Analysis of fiber-reinforced polymer composite grid reinforced concrete beams (100-S27) Tavarez, F. A.; Bank, L. C.; and Plesha, M. E., Mar.-Apr. 2003 . . . . . 250
—Deformation behavior of fiber-reinforced polymer reinforced engineered cementitious composite (ECC) flexural members under reversed cyclic loading conditions (100-S4) Fischer, G., and Li, V. C., Jan.-Feb. 2003 . . . 25
—Intrinsic response control of moment-resisting frames utilizing advanced composite materials and structural elements (100-S18) Fischer, G., and Li, V. C., Mar.-Apr. 2003 . . . . . 166
—Simulation of highly ductile fiber-reinforced cement-based composite components under cyclic loading (100-S77) Han, T.-S.; Feenstra, P. H.; and Billington, S. L., Nov.-Dec. 2003. . . . . 746
**Composite concrete**
—Seismic retrofit with continuous slurry-infiltrated mat concrete jackets (100-S73) Dogan, E., and Krstulovic-Opara, N., Nov.-Dec. 2003 . . . . 713
**Compression field modeling of reinforced concrete subjected to reversed loading: formulation** (100-S64) Palermo, D., and Vecchio, F. J., Sept.-Oct. 2003 . . . . . 616
**Compressive strength**
—Seismic performance of hollow bridge columns (100-S37) Mo, Y. L.; Wong, D. C.; and Maekawa, K., May-June 2003 . . . . . 337
**Concrete**
—Analysis of fiber-reinforced polymer composite grid reinforced concrete beams (100-S27) Tavarez, F. A.; Bank, L. C.; and Plesha, M. E., Mar.-Apr. 2003 . . . . . 250
—Calibration of design code for buildings (ACI 318) part 1—statistical models for resistance (100-S41) Nowak, A. S., and Szerszen, M. M., May-June 2003. . . . . 377
—Cyclic response of exterior reinforced concrete beam-column joints reinforced with headed bars—experimental investigation (100-S28) Chutarat, N., and Aboutaha, R. S., Mar.-Apr. 2003 . . . . . 259
—Earthquake-resistant design of reinforced concrete structures: shortcomings of current methods (100-S2) Kotsovos, M. D.; Baka, A.; and Vougioukas, E., Jan.-Feb. 2003 . . . . . 11
—Experimental and analytical modeling of concrete-filled fiber-reinforced polymer tubes subjected to combined bending and axial loads (100-S53) Fam, A.; Flisak, B.; and Rizkalla, S., July-Aug. 2003 . . . . . 499
—Experimental investigation of lap splices in externally bonded carbon fiber-reinforced plastic plates (100-S1) Stallings, J. M., and Porter, N. M., Jan.-Feb. 2003 . . . . . 3
—Flexural and shear strengthening of concrete beams using new triaxially braided ductile fabric (100-S83) Grace, N. F.; Ragheb, W. F.; and Abdel-Sayed, G., Nov.-Dec. 2003 . . . . . 804
—Innovative system for prestressing fiber-reinforced polymer sheets (100-S33) El-Hacha, R.; Wight, R. G.; and Green, M. F., May-June 2003. . . . . 305
—New concrete anchors for carbon fiber-reinforced polymer post-tensioning tendons—part 1: state-of-the-art review/design (100-S10) Reda Taha, M. M., and Shrive, N. G., Jan.-Feb. 2003 . . . . . 86
—New concrete anchors for carbon fiber-reinforced polymer post-tensioning tendons—part 2: development/experimental investigation (100-S11) Reda Taha, M. M., and Shrive, N. G., Jan.-Feb. 2003 . . . . . 96
—New shear strengthening technique for concrete slab-column connections (100-S32) El-Salakawy, E. F.; Polak, M. A.; and Soudki, K. A., May-June 2003 . . . . . 297
—Reduction of column yielding during earthquakes for reinforced concrete frames (100-S59) Kuntz, G. L., and Browning, J., Sept.-Oct. 2003. . . . . 573
